WEDDINGS

MOON—McLEAN

The marriage of Sheila Jane, only daughter of Mr. and Mrs. Duncan McLean, Foster street, Berwick, to Cpl. Royden Glen Moon, RCAF, Greenwood, son of W.C. Moon and the late Mrs. Moon, Didsbury, Alberta, was solemnized at the home of the bride's parents, Saturday evening, July 7, at 7:30 o'clock, the double ring ceremony being performed by Rev. C.W. Cook in the presence of seventy-five guests.

The living rooms were decorated with Canterbury bells in pastel shades.

The bride, who was given in marriage by her father, wore a floor-length gown of white frosted organdie, with full-length veil caught with a coronet of sequins and pearls. She carried an arm bouquet of American Beauty roses. Bridesmaid Miss Doris Davies wore aqua silk with white baleros and carried a bouquet of yellow roses and carnations.

The little flower girl, Joanne Dennison, wore a frock of pink silk with a headress of pansies and carried a basket of pansies. Best man was Kenneth Esler, RCAF Greenwood, cousin of the groom.

The wedding music was played by Miss Eleanor Lyons, and Miss Muriel MacLellan, Halifax, sang "Because" during the signing of the register.

At the reception following the ceremony Mr. and Mrs. McLean, parents of the bride, received with the bride party, Mrs. McLean wearing blue and white with corsage of pink and yellow roses. The lace-covered tea table was centred with the three-tiered, decorated wedding cake, with white tapers in silver candlesticks on either side.

Miss Pauline Woodworth served the bridal party and others serving were Misses Lucy Borden, Lilah Shepard, Berwick, and Pat Perry, Halifax.

Mr. and Mrs. Moon are spending their honeymoon at Margaretville, and will reside at RCAF Station, Greenwood, where the groom is stationed. The bride has been in the Mar. Tel. & Tel. office in Berwick for several years and in the Greenwood office for the past six months.

Precious to the marriage, a shower was held for Miss McLean at the home of Mrs. Ivan Cornwall, when she received a great variety of gifts.

MEMORIALS, as low as \$40. Prices include all lettering, freight and erecting. Samples shown on request.—J. A. Neufeld, phone 2110, Didsbury. 29-4p

2nd Didsbury Scout Troop Has 18 Members

The 2nd Didsbury Troop, Boy Scouts, has closed its doors on the first year of organized troop activity. The boys have shown a continuous interest in scouting and have maintained a troop strength of about eighteen members.

The parents of the boys, with other interested friends, backed the venture of organizing the troop early last fall. With the Parent Committee and the support of these

parents and friends the Scout Leaders have been able to conduct a series of good meetings and to lead the boys into a very prize worthy degree of promotions in the Scout way.

At the beginning of last fall not one of the boys had had any Scout training. From this very humble beginning the Troop can now boast of a complete organization, with its own camping equipment of four patrol tents plus other incidentals. The boys are enrolled in Three Patrols: Stag, Eagle and Wolf, each with its own Patrol Leader and Second. The Troop, within one year,

has seen the promotion of five boys to Second Class Scouts, 15 boys to Tenderfoot Scouts and has five Proficiency Badges.

The Troop has participated in several organized hikes, one winter camp for leaders (Expedition Polar Bear) and a Spring Camp. The Troop is anticipating a short summer camp to be held August 21 to 24th.

All those connected with the 2nd Didsbury Troop have felt they have enjoyed a good year. Scouting is lots of good clean fun but we all agree it has proved itself to be more than that—it's a Way, a way of life promoting good citizenship based upon the principles of the Word of God.

To those boys who read this article we send an invitation to you to consider joining. If you are not a member already, the Scouting Movement. If you want good company, enjoyable Scout training and the fun of organized camping come along with the 2nd Didsbury Troop.

—Contributed

Ten Injured in Car Accident North of Here

Ten persons are recovering from injuries suffered in the collision of two cars three miles north of Didsbury, on Tuesday, July 17.

Most seriously hurt in the accident were Mariene Romanski, 5, with a broken nose, and her sister, Lily, who suffered a broken foot.

Eight other persons were taken to the Didsbury Municipal Hospital for treatment of cuts and bruises.

They included the parents of the girls, Mr. and Mrs. Elias Romanski, of Wimboune, Alberta, and their two sons, Arthur, 14, and Billy, 7, and a nephew, Hugo Buettner. The occupants of the second car, who were all from Calgary were Wm. Johnson, Mrs. C.C. Theide, and her son.

The accident occurred when one car tried to pass another car that was turning off the highway and in so doing struck the on-coming car head-on.

KEEPPINGS

McMULLEN—HAYES

Fallen Timber school was the setting for a charming wedding on Tuesday, July 17, when Delores Irene, youngest daughter of Mr. and Mrs. Elmer Hayes of Cremona and Raymond Burton McMullen, second son of Mr. and Mrs. R. McMullen of Fallen Timber, were united in marriage. The ceremony was performed by Rev. E. Shantz, of Castor, cousin of the bride.

The bride wore a gown of ice blue lace over brocade white satin with a floor-length veil of net. She carried a bouquet of red roses. Her only ornament was a three-strand necklace of pearls, the gift of the groom.

The matron of honor, Mrs. Ruth Roberts, sister of the bride, was attired in a mauve flock dot organdy gown and white hat and she carried yellow roses.

Mrs. Frances Webb, sister of the bride, was bridesmaid. She wore a yellow flock dot organdy gown and carried mauve roses.

Little Joyce Webb, niece of the bride, made a charming flower girl. She was dressed in blue, satin floor-length frock with a white net overskirt caught at the hem with tiny bows. She carried pink roses.

The bride's mother wore a sea green gabardine suit and peach hat while the groom's mother wore a pencil-striped grey suit and black hat.

The bride's gifts to her attendants were choker necklaces of pearls.

The groom was attended by his brother, Mr. Barry McMullen, and the bride's brother, Mr. Johnny Hayes. Mr. Donald McMullen and Mr. Archie McMullen were ushers.

A reception was held immediately after the ceremony, followed by lunch. The bridal table was centered with a three-tier wedding cake. Mr. Barry McMullen proposed the toast to the happy couple, and the groom ably responded.

Mr. and Mrs. McMullen left on a bridal trip to Honolulu. On their return they will reside on their farm west of Elberton.

For travelling the bride wore a grey gabardine suit and royal blue shorty coat with matching accessories.

Guests from outside the district were Mrs. Oliver, Chilliwack, B.C.; Mrs. Little, Lethbridge; Mrs. Lloyd Torgeson, Rimby; Mr. and Mrs. Syd Miller, Acme; Mrs. Beth Kramer and son, Calgary; Mr. Ted Mellon and Raymond, Calgary; Mr. and Mrs. Roy Shantz, Didsbury; Mr. and Mrs. Albert McMullen and sons Arthur and Robert, Red Deer; Mr. and Mrs. Lorentson, Red Deer; Miss Kirby, Calgary; Mr. and Mrs. Rothwell, Didsbury; and Mr. and Mrs. Don McMullen, Didsbury.

CHARPENTIER—DURANT

A very pretty wedding was solemnized in the Church of the Immaculate Conception on Saturday, July 14, at one o'clock, when Winifred Ruth, youngest daughter of Mr. and Mrs. Glenn Durant, Vancouver and formerly of Didsbury became the bride of Bernard Joseph Charpentier, son of Mr. and Mrs. Ted Charpentier also of Vancouver.

The bride wore a white slipper satin gown, with fitted bodice, lily-pointed sleeves and a sweetheart neckline. Her heilgown veil was floor length, and she carried a bouquet of red roses and stephanotis.

The bride was attended by Mrs. J. McLennan, matron of honor, in a floor-length gown of mauve brocade taffeta and net and arranged yellow gladioli. Miss Daphne Wilson, bridesmaid, wore a matching gown of Nile green and carried coral gladioli.

The best man was the brother of the groom, Mr. Arthur Charpentier. Mr. Ronny Charpentier and Mr. Neil Stewart acted as ushers.

Immediately after the ceremony a reception was held at the home of the bride's parents after which the young couple left for a honeymoon in the south.

Upon their return Mr. and Mrs. Charpentier will reside at 1516 Nanaimo St., Vancouver.

OIL MAKES A COUNTRY STRONG**"OIL NEEDS A LOT OF THINGS, JIMMY!"**

"Tankers, Jimmy, are just one of the things the oil business needs. It needs supplies for pipe lines and new refineries. It needs tank cars and trucks and storage tanks. It needs workers and material from all parts of Canada."

Bringing you oil is a big job. It employs labor and skills and ideas across the nation. In the past five years Imperial Oil alone has undertaken to invest more than \$200 millions—about \$60 for every family in Canada. Much of this money has been spent to find and develop new oil fields in the prairies, fields which mean new prosperity and new security for all Canada. But almost half of it has been invested in new tankers and pipe lines, in new refining units and in facilities to bring the products to you.

With oil playing an increasingly important part in our daily lives, the oil industry's job is bringing new strength and better living for Canadians everywhere.

Agricultural
SERVICE
BOARD
NOTES
W.K. Snyder,
Field Supervisor

ENEMIES AND FRIENDS

If you see any new or strange looking plants in your field and aren't sure whether they are weeds or not, report them to your Field Supervisor. In areas where they have become established, such weeds as Tartary Buckwheat, Hoary Cress, Road Flax and Leafy Spurge are demanding time, effort and money to control. If these weeds had been recognized and destroyed on their first appearance enormous savings would have been effected. Report all strange plants in your crops whether they appear harmful or not. If they are not noxious, no harm will have been done. If they prove to be dangerous, early identification will save trouble and expense.

District Agriculturists, Field Supervisor and weed inspectors are all working toward betterment of agriculture in your community and for the welfare of the people engaged in agriculture. They are there to help you, but you can best profit from their experience only by keeping in constant touch with them and making full use of their services.

Notes From the D.A.

(Hugh McPhail)

The following article from the Lethbridge Experimental Station on "Quality in the Hay Crop" is timely. We are rapidly approaching the time for the first cut of alfalfa hay. Of great importance to the grower is the yield, and most farmers give this matter considerable attention. Of equal or greater importance is the quality of the hay protein. Before cutting starts, it is well to review some of the factors that bring high quality hay, and the importance of high quality.

Leafiness, rich green color, and fineness of stem all contribute to high quality. The leaves of alfalfa should constitute approximately half of the plant and will contain from 60 to 70 per cent of the protein. This means that your leafy types of alfalfa will be much higher in protein than the stemmy types. Although the farmer can do nothing to increase the amount of leaf in alfalfa, he can do much to prevent loss of leaf by cutting at the proper stage of growth and by a minimum amount of handling in the haying process.

The most common losses in quality of hay are caused by the following:

1. Weedy or thin stands—thin stands cause coarse leaves and leaves with low percentage of leaves and permit invasion of undesirable weeds.

2. Over maturity at time of cutting—this causes a loss of leafiness, hard coarse stems, poor color and considerable reduction of protein content.

3. Weather damage—loss of color and protein is caused by bad weather in haying time. Prolonged wet weather often causes moulding of mature hay.

4. Over cutting—this causes the hay to become brittle with a very high loss of leaves.

5. Failing and stacking incured hay—this results in heating, fermentation, or mouldiness.

6. Handling during hot, dry windy weather—this is usually accompanied by a great loss of leaves resulting in poor quality, stemmy hay.

The best time of cutting to get the optimum yield of high protein, fine quality hay, is in the early stages of flowering. Heavier yields of hay are obtained by cutting in the half to full bloom stage but the protein content is considerably reduced. By giving more attention to quality and less quantity, a much more satisfactory hay crop will be obtained.

TRADES AND BUSINESSES
GET PERMANENT LICENCES

The new system of permanent licenses for trades and businesses has been put into effect by the Alberta Department of Industries and Labor, according to the latest issue of the Alberta Gazette.

The permanent licenses will be substituted for annual licenses in most trades and businesses. If a trade or business obtained its license before the announcement, the license will be changed to a permanent one with no extra charge. Trades and businesses applying for licenses will now apply for a permanent license.

Trades and businesses to which the permanent licenses will apply are—auto mechanics, the automotive industry, the barber trade, the beauty culture trade, the cleaning and dyeing trade, collection agencies, the commercial printing industry, flour and feed milling, fuel oil dealers, funeral directors, grain buyers, junk dealers, margarine manufacturers, meat packing industry, photo finishing industry, retail and wholesale trade and trade schools. These previously held annual licenses.

Annual licenses will continue to be issued to bakeshops, restaurants, sawmills and tourist camps, and these licenses will expire March each year. Annual licensing of billiard rooms and bowling alleys will be continued also, with the licenses expiring June 30 of each year. These businesses must meet required inspection standards annually.

While the cost of the permanent license fee is somewhat higher, the Department of Industries and Labor pointed out that new rates are of a nominal nature when compared with the annual cost of renewal of licenses.

PEELS VEGETABLES

Designed for the armed forces to take the pain out of K.P. and now marketed for use in hotels, hospitals and restaurants, etc., is a stainless steel floor model portable vegetable peeler. Coming in 40 or 60 pound capacity the unit requires no operating and is automatically timed to prevent over-peeling. Claimed to remove only very thin skin. These machines can peel 40 or 60 pounds of potatoes or other root vegetables in a little more than a minute.

CHRISTIAN SCIENCE

Is there a definite path leading to truth which all may follow? This question will be answered in Christian Science churches on Sunday. The Lesson-Sermon is entitled "Truth." Following are typical excerpts from it: "Jesus saith unto him, I am the way, the truth, and the life: no man cometh unto the father, but by me." John 1:9. "All must admit that Christ is 'the way, the truth, and the life' and that omnipotent Truth certainly does destroy error." (Scripture and Health with Key to the Scriptures, by Mary Baker Eddy, p. 333).

CANADIAN GRADUATE WINS
NEWGATE AWARD

The Newgate Prize for English verse has been awarded to Michael Harnyanski, Merion College, a Rhodes Scholar, and graduate of Toronto University. In the Shelton on June 20 he read his poem at

the Encaenia, to an audience including the Governor-General Lord Alexander, Prime Minister Mr. St. Laurent, and Canadian Secretary of State for External Affairs, Mr. L.B. Pearson.

The subject this was the "Queen of Sheba."

POWER
INTERRUPTION
A MESSAGE TO OUR CONSUMERS

We regret very much the inconvenience caused our customers by the interruption to your electrical service on Sunday, July 15th.

The interruption was caused by a severe lightning stroke which shattered one of the main structures on the 138,000 Volt line from Ghost Hydro plant to Edmonton, approximately 17 miles west of Carstairs.

The damaged structure was located quickly by patrolling the line with an aeroplane. Normally, under favorable road conditions, this type of trouble would cause only a short interruption. However, due to the heavy rainfall on Sunday, it took our trucks, even with power winches, hours to plow through the muddy roads and field to get men and repair material to the damaged structure.

Interruptions caused by this type of trouble will soon be eliminated with the completion of a new One and a Half Million Dollar line being constructed from Ghost Hydro plant to Edmonton. This line is now one-third completed and will be in service this fall.

Again may we express our regrets and we trust you were not put to too much inconvenience.
